WHY THIS CHANGES EVERYTHING

No one in the meeting knows it's AI.

Nyla appears as a real person in the participant list. No "Bot" badge. No "Guest" tag. No IT setup at your end. Just share the meeting link.

Other AI meeting tools

- × Show up as **"Bot"** or **"Guest"** in the roster
- × Need your IT admin to allow guest access
- × Require app installation or licenses
- × Only transcribe — can't speak or act

Nyla

- ✓ Appears as a **real person** — no labels
- ✓ Zero setup for you — no admin, no config
- ✓ Nothing to install. No licenses needed.
- ✓ Speaks, chats, answers questions — live

WHAT SHE CAN DO

Nyla listens, speaks, answers, analyzes, and summarizes — while the meeting is still running.

Speaks in the meeting

Participants hear Nyla speak — just like any other colleague.

Chats in real-time

Reads and writes in the meeting chat. Voice, text, or both.

Answers questions live

"Nyla, summarize what we discussed." She responds immediately.

Analyzes continuously

Real-time AI running throughout the meeting. Not just after.

Full transcript

Every word, every speaker, properly attributed. Streamed live.

Meeting summary

Key decisions, action items, topics — delivered when the meeting ends.
